So, without further delay, let's get down to business and read Chapter 4. Here's a review, I am not the book reviewer. I am an economist who has an interest in India. I only have a limited understanding of the book (So, I cannot comprehensively review it) and would write here on what I have read. I have not read this book. I do have a medium level knowledge of economics. Hence, I would write a few words here and there in the book as I go along on it. I have not read this book. Some of the things I will write here may be lacking in context or even
